Level 5 protection

Towa's patented
MICROFINISH™ palm
coating offers the best
grip in the industry!

Protection against oil
and liquids on the palm
and the entire back of
the hand

13-gauge seamless
UHMWPE and glass fibre
hybrid liner

Extreme durability and
extreme protection

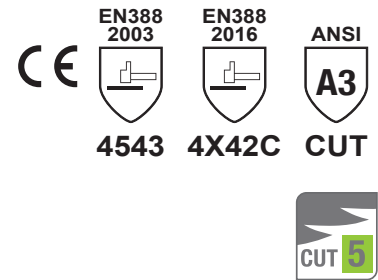

ACTIVGRIP™ OMEGA MAX CUT 5 GLOVE

AGO

Highest performance cut protection

The highest protection model of the series. Using HPPE fibre technology, ActivGrip™ Omega Max achieves high performing cut resistance. In addition, the ActivGrip™ Omega Max is designed for maximum liquid proof protection—through 360°. Combined with the liquid proof palm and MicroFinish® grip technology, the ActivGrip™ Omega Max is ideal for the most extreme tasks and where true reliability of performance is needed.

PERFORMANCE FEATURES

Maximum Performance

- + A lightweight 13-gauge seamless HPPE liner and ergonomic design assures maximum comfort without decreasing dexterity. The engineered design guarantees maximum performance without fatigue.

Maximum Safety

- + Using HPPE fibre, ActivGrip™ Omega Max offers high cut resistant protection. Fingers are double coated to bring ActivGrip™ Omega Max to the highest level of safety without losing performance, durability or dexterity.

Liquid Resistant Palm & Back

- + The double coated palm surface and coated back keep hands clean and prevent any oils or liquids from seeping inside. ActivGrip™ Omega Max combines maximum performance with hygiene for the ultimate protection of the user's hands.

Grip Performance

- + Towa's original MicroFinish® technology offers the best grip in the industry, in dry, wet or oily conditions.
