

ASTRON RECHARGEABLE BEACON

LBAS-M

Rechargeable LED Flashing Beacon,
Magnetic Mount

This is new technology--a rechargeable magnetic beacon. Now you can operate a magnetically mounted beacon without having to run a cable out the window. The unit has an integral on/off switch with a smart battery status LED indicator and a combined magnet and suction cup mounting.

Light source: 12 x 3W
3535 high power LEDs

3 flash patterns—
single flash, dual flash,
rotate

E-approved: ECE R65

Integral on/off switch
and smart battery
status LED indicator

Battery: 18650 li-ion
battery, 2200MA

Comes with 12-24V DC
cigarette plug and 240V
AC adapter

PERFORMANCE FEATURES

- + Light source: 12 x 3W 3535 high power LEDs
- + 3 flash patterns—single flash, dual flash, rotate
- + Integral on/off switch and smart battery status LED indicator
- + E-approved to ECE R65 when running from external power
- + Battery: 18650 li-ion battery, 7.4V/2200MA
- + Charging voltage: 12-24V DC or 240V AC
- + Charging Time: 3 hours
- + Run time: 3 hours
- + Waterproof rating: IP65
- + Mounting: Combined magnet and suction cup
- + Size: 140mm (h), 128 mm (dia)
- + Charging cable stretches to maximum length of 3 metres
- + Not for high speed operation. 100kmh max vehicle speed.

SUITABLE FOR

Anywhere a magnetically mounted beacon might be used but with the feature of highly convenient cordless operation and easy portability.

- + Agricultural vehicles
- + Refuse collection
- + Road maintenance
- + Mowing and weed spraying
- + Infrastructure maintenance
- + Surveying
- + Airports and transport hubs
- + Logistics
- + Construction
